

CASINO

THE REEL THING

CASH IN ON CASINO

SPIN TO WIN

Having a casino in your product range is always valuable. Casino has proven to have a high conversion rate to and from other products. Casino represents no less than 24% of egaming revenues in Europe, and the take is considerably higher than other games.

Having your casino on Ongame's platform allows you to boost those revenues even higher. Ongame has the necessary liquidity to differentiate the player experience through joint promotions and progressive jackpots.

ANY WAY YOU WANT IT

The casino client is customized with your brand and colors, language and currency, sounds and game selection – all to serve your specific market segment. All game settings are easily accessible through the admin tool in Ongame's egaming platform.
